# RIZKY NUGRAHA PUTRA

+62 823 3438 7123 | rizkynugr.contact@gmail.com | https://www.linkedin.com/in/rizkynugr/

Results-driven D3 Informatics Engineering graduate & Full-Stack Developer. Experienced in React, Node.js, and creating intuitive UI/UX for web platforms.

## Work Experiences

**PT. Glace Kreasi Digital** - **Madiun, East Java, Indonesia** Jan 2026 - Feb 2026

*Frontend Developer Intern*

Project: Aquafarm Kit V2 Web Application

- Redesigned and developed a responsive web interface using Figma, React, and Tailwind CSS, successfully digitizing manual aquaculture operations into a centralized monitoring platform.
- Engineered a real-time data visualization dashboard with Chart.js to track critical water quality metrics, enabling farm managers to make faster, data-driven decisions.
- Built an early-warning notification system and feeding schedule modules that proactively alert users to out-of-bounds pond parameters, helping to minimize commodity mortality risks.
- Integrated the frontend with RESTful APIs using Axios and optimized React state management to ensure seamless and accurate synchronization of real-time sensor data.
- Delivered a fully functional prototype that streamlined daily farm management and improved overall operational efficiency for aquaculture farmers.

**PT. PLN (Persero)** - **Ponorogo Regency, East Java, Indonesia** Sep 2025 - Dec 2025

*Fullstack Developer Intern*

Project: Distribution Asset Maintenance System

- Scalability & Full-Stack Development: Spearheaded the development of a web application using React, Node.js, and MySQL to digitize the fault-handling lifecycle, successfully optimizing the platform to support up to 100 users seamlessly without performance degradation.
- Offline-First PWA Architecture: Engineered a Progressive Web App (PWA) with robust offline capabilities utilizing Service Workers and IndexedDB, enabling field technicians to log maintenance data without network connectivity and automatically syncing upon reconnection.
- UI & API Integration: Built responsive frontend interfaces with React and Tailwind CSS, utilizing Axios to integrate RESTful APIs that streamline technical workflows—from initial anomaly reporting to in-depth field analysis.
- Backend & Database Architecture: Designed the relational database architecture in MySQL and built robust Node.js backend services to track repair executions, ensuring strict maintenance data integrity and providing accurate historical records.
- Business Impact: Delivered a centralized platform with a comprehensive post-repair validation workflow that significantly accelerates technical response times and allows management to transparently monitor repairs from breakdown to full restoration.

## Education

**Universitas Sebelas Maret** - **Surakarta, Middle East, Indonesia** Aug 2023 - Jul 2026

*Associate of Informatics Engineering, 3.61/4.00*

- Academic Focus: Completed 115 credits with a 3.61 GPA, specializing in software engineering, modern web development, data structures, and database architecture.
- Capstone Project: Developed an immersive Virtual Reality (VR) application that reconstructs 160 hidden relief panels of Borobudur Temple, creating an interactive digital medium for historical preservation.
- Hands-On Projects: Engineered and rigorously tested over 5 responsive, full-stack web applications utilizing React.js, Node.js, and RESTful APIs.
- Awards & Collaboration: Collaborated within a technology research team to win 3rd Place Nationwide in the Digital & Creative Technology category at the 9th Indonesian Vocational Olympiad (OLIVIA IX, 2024).

## Organisational Experience

**HIMA PSDKU UNS** - **Surakarta, Middle Java, Indonesia** Jan 2024 - Dec 2024

*Staff of Advocacy and Student Welfare (Adkesma)*

- Advocated for student interests by actively gathering and presenting feedback regarding academic policies and campus facilities to the university administration.
- Managed student welfare initiatives by systematically disseminating information on scholarships and financial aid programs to support students in need.
- Facilitated effective communication between students and faculty management to swiftly resolve administrative issues and academic constraints.

**PEMIRA HIMA PSDKU UNS 2024** Sep 2024 - Nov 2024

*Head of Organizing Committee*

- Project Leadership: Led the end-to-end planning and on-the-ground execution of the 2024 Student Association Election, ensuring all operational stages were completed seamlessly and on schedule.
- Team Management: Directed and coordinated cross-functional committee divisions to streamline communication, manage logistical workflows, and ensure the transparent execution of the election.
- Operational Oversight: Managed real-time event operations and administrative procedures, effectively resolving on-site challenges to guarantee a fair, structured, and smooth voting process for all students.

## Skills

- **Soft Skills**: Adaptability & Continuous Learning, Project Leadership & Management, Cross-Functional Collaboration, Analytical & Critical Thinking, Problem Solving & Troubleshooting
- **Hard Skills** : UI/ UX Design, HTML & CSS, React, Typescript, Javascript, Tailwindcss, Restful API, PHP Laravel, Node.js, Chart.js, MySQL, Database Architecture
- **Tools**: Figma, Canva, Framer, Google Stitch, VS Code, AntiGravity, Draw.io, Github, Postman, XAMPP, Docker
